levirroH - Look! Can you see?

ordeP, ovatsuG, odraciR - Yes!

odraciR - I HAVE AN IDEA!

ovatsuG e levirroH - SAY IT!

odraciR - And if we add modified
cells of knowledge causing the virus
to be attracted, infected and
later destroyed.

At the lab:

Scientist osopmiP - I did what you wanted.

levirroH - Thank you, Mr. osopmiP.

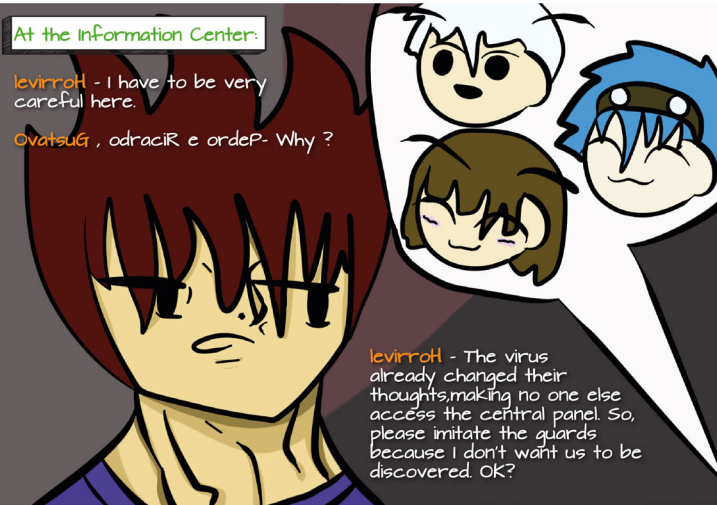

ovatsuG - I hope it works.

ordeP - Me too.

At the Information Center:

levirroH - I have to be very careful here.

OvatsuG , odraciR e ordeP- Why ?

levirroH - The virus already changed their thoughts, making no one else access the central panel. So, please imitate the guards because I don't want us to be discovered. OK?

OvatsuG , odraciR e ordeP - Yes!

ovatsuG - How?

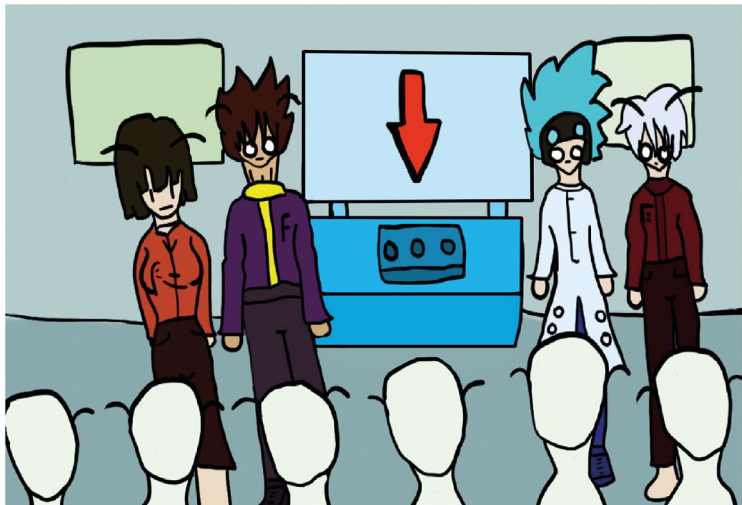

LevirroH - Imitate them by pretending you are zombies too. While I am adding the modified cells, do not interrupt because they can fall to the ground and disappear. Alright?

OvatsuG , odraciR e ordeP - Alright!

Approaching the Central Room where the panel is:

[whispering] **levir**roH - Go on.. we are doing well.
If we are caught, we will be sent to jail.

Entering the Information Center successfully

[whispering] **levirroH** - It is the place where we feed information into the computer for each section.
We're almost there.

[whispering] **levirroH** - Just put here...

ZOMBIES - STOP! WHAT ARE YOU DOING?!

levirroh - RUUUN!!!

levirroH - We're going
to come back tomorrow.
